

Skittles Rainbow Experiment

Things You Will Need:

White plate (paper, plastic, or glass)

Skittles (original colors)

Water

Directions:

1. Line skittles around the perimeter (outer edge) of the plate.
2. Pour water in the center of the plate until it reaches the skittles.
3. Watch what happens...do you see the explosion of color?

*Try this experiment with M& M's to see if you get the same results.
