

# Shaving Foam Cloud Prayers

## You will need:

Shaving foam

A tall glass

Water

Food coloring

Small dishes

Droppers (or spoon)

## Directions:

1. Pour a couple of tablespoons of water into each small dish
2. Add food coloring to each dish of water
3. Fill the glass halfway with water
4. Squirt shaving foam on top of the water to form a cloud
5. Think of a person or situation you would like to life in prayer and ask God to help them
6. Drop a small amount of colored water on top of the shaving foam cloud
7. The color will slowly seep through the spaces between the foam and the glass and “rains” down into the water.
8. As this happens, imagine God’s power breaking through and changing the situation you lifted to him in prayer.
