

# Trusting God:

## The Amazing Water Glass Trick

Supplies Needed: A glass (large or small will work)

Index card

Water

Directions:

1. Fill the glass 2/3 full.
2. Place the index card over the top of the glass.
3. Make sure the entire rim of the glass is covered at all times.
4. Press the index card firmly to the glass.
5. Hold onto the top of the card with one hand and move your other hand down the glass, towards the bottom.
6. Carefully flip the glass upside down, making sure you keep holding the card in place.
7. You may see a tiny bit of water, but don't panic. It's okay!
8. Slowly move the hand holding the card from underneath the card.
9. Your card should stick, holding the water inside the glass.

Amazing, huh? Air pressure pressing upwards is holding the card in place.

We can't see the air pressure, but we know it must be working or the card would fall and the water would spill out. We can't see God but we know that he is there holding us up and supporting us too! Pastor Chris may not have wanted to trust me not to spill water on him, but I knew what I was doing and God knows what is doing too!!

Now you try this trick. Be sure your parents or someone is there to help just in case of a spill.
